Ceiling Heights

Upgrade your space with our versatile ceiling height options. Choose between our classic 2.26m ceiling height or our new 2.4m¹ ceiling height, each offering distinct advantages tailored to your needs. The 2.26m provides a cozy, inviting atmosphere, while the 2.4m¹ offers a spacious feel and room for a ceiling fan, ensuring maximum comfort and functionality.

¹Due to the extremely flat roof of the 2.4m high ceiling model it is required to add an angled roof over the whole home on installation to ensure water leakages don't arise. Ask about our **Gable Truss Roof** option, or you can choose to install your own.
